

# Deployment / Silent Install of SoftMaker Office 2012

SoftMaker Office 2012 can be installed silently in just two steps:

- Unpack the MSI file from the SoftMaker setup program.
- Run a command line to install the MSI file.

Please read the following instructions carefully:

**1.** Copy the `ofw2012std.exe` (SoftMaker Office Standard) or `ofw2012pro.exe` (SoftMaker Office Professional) file to a local hard disk.

**2.** Open a command shell (CMD.EXE) in administrator mode. To do this in Windows 7, click on **Start**, type CMD.EXE, then right-click on the found executable in the Start menu and choose “Run as administrator”.

**Note:** If you do not run this as administrator, installation of the MSI file will silently fail.

**3.** For SoftMaker Office Standard, run this command: `ofw2012std.exe /ExtractCab`

For SoftMaker Office Professional, run this command: `ofw2012pro.exe /ExtractCab`

**4.** Select any of the offered languages.

Depending on the version of SoftMaker Office you are installing, either the file `SoftMaker Office 2012.msi` or `SoftMaker Office Professional2012.msi` will now be created in the folder `SupportFiles`.

Do *not* rename the MSI file, or the installation will fail.

**5.** Switch to the folder `SupportFiles`.

**6.** Then run the `msiexec` program to install the MSI file.

A typical command line looks like this:

```
msiexec /i "SoftMaker Office 2012.msi" /qn TRANSFORMS=:lng_de.mst ADDLOCAL="ALL"  
ALLUSERS=1 APPLICATIONFOLDER="%ProgramFiles%\SoftMaker Office Standard 2012"
```

Here are the command-line parameters that you can and/or should add:

- `/qn` initiates a silent install. If you wish to receive feedback during the installation, replace it with `/qb`.
- To install SoftMaker Office in a language other than English, add the `TRANSFORMS` parameter with the desired language:

Arabic	<code>TRANSFORMS=:lng_ar.mst</code>
German	<code>TRANSFORMS=:lng_de.mst</code>
Spanish	<code>TRANSFORMS=:lng_es.mst</code>
French	<code>TRANSFORMS=:lng_fr.mst</code>
Greek	<code>TRANSFORMS=:lng_gr.mst</code>
Hungarian	<code>TRANSFORMS=:lng_hu.mst</code>
Italian	<code>TRANSFORMS=:lng_it.mst</code>
Japanese	<code>TRANSFORMS=:lng_jp.mst</code>
Dutch	<code>TRANSFORMS=:lng_nl.mst</code>
Portuguese	<code>TRANSFORMS=:lng_pt.mst</code>
Russian	<code>TRANSFORMS=:lng_ru.mst</code>

Turkish	TRANSFORMS=:lng_tr.mst
Simplified Chinese	TRANSFORMS=:lng_zh.mst

- To do a full install, add this parameter:

ADDLOCAL="ALL"

- During installation, icons for the SoftMaker Office applications will be created in the Windows Start menu. It is recommended to add the following parameter which creates these icons for *all users* of the computer:

ALLUSERS=1

- For a custom install, add the ADDLOCAL parameter with a list of the program features that you wish to install. Possible parameters:

Install TextMaker	FEATURE_TM
Install PlanMaker	FEATURE_PM
Install BasicMaker	FEATURE_BM
Install SoftMaker Presentations	FEATURE_PR
Install the SMASH application shell	FEATURE_SMASH
Install German user interface, samples, and templates	FEATURE_LANG_DE
Install US English user interface, samples, and templates	FEATURE_LANG_ENUS
Install UK English user interface, samples, and templates	FEATURE_LANG_ENUK
Install French user interface, samples, and templates	FEATURE_LANG_FR
Install Italian user interface, samples, and templates	FEATURE_LANG_IT
Install Spanish user interface, samples, and templates	FEATURE_LANG_ES
Install Portuguese (Brazil) user interface, samples, and templates	FEATURE_LANG_PT
Install Dutch user interface, samples, and templates	FEATURE_LANG_NL
Install Hungarian user interface, samples, and templates	FEATURE_LANG_HU
Install Greek user interface, samples, and templates	FEATURE_LANG_GR
Install Turkish user interface, samples, and templates	FEATURE_LANG_TR
Install Russian user interface, samples, and templates	FEATURE_LANG_RU
Install Bulgarian user interface, samples, and templates	FEATURE_LANG_BG
Install Simplified Chinese user interface, samples, and templates	FEATURE_LANG_ZH
Install Japanese user interface, samples, and templates	FEATURE_LANG_JP
Install Arabic user interface, samples, and templates	FEATURE_LANG_AR
Install German spell checker	FEATURE_SPELL_DEDE
Install UK English spell checker	FEATURE_SPELL_ENUK
Install US English spell checker	FEATURE_SPELL_FRFR
Install Italian spell checker	FEATURE_SPELL_IT
Install Spanish spell checker	FEATURE_SPELL_ESES
Install Portuguese spell checker	FEATURE_SPELL_PTPT
Install Dutch spell checker	FEATURE_SPELL_NL
Install Danish spell checker	FEATURE_SPELL_DK
Install Swedish spell checker	FEATURE_SPELL_SE
Install Norwegian spell checker	FEATURE_SPELL_NO

Install Russian spell checker	FEATURE_SPELL_RU
Install Arabic spell checker	FEATURE_SPELL_AR
Install Greek spell checker	FEATURE_SPELL_GR
Install Duden dictionaries (only SoftMaker Office Professional; German customers only)	FEATURE_DUDEN
Install Langenscheidt dictionaries (only SoftMaker Office Professional; German customers only)	FEATURE_LANGENSCHIEDT_DE
Install Duden Korrektor (only SoftMaker Office Professional; German customers only)	FEATURE_DPF
Install Equation Editor	FEATURE_EQEDT
Install supplementary fonts (Glasgow, MicroSquare, Seagull, Toledo) used by the templates and samples	FEATURE_FONTS

Simply list all the features that you need, separated by commas:

```
ADDLOCAL="FEATURE_TM,FEATURE_PM,FEATURE_LANG_ENUS,FEATURE_SPELL_ENUK,FEATURE_SMASH"
```

Example command line:

```
msiexec /i "SoftMaker Office 2012.msi" /qn TRANSFORMS=:lng_de.mst
ADDLOCAL="FEATURE_TM,FEATURE_PM,FEATURE_LANG_ENUS,FEATURE_SPELL_ENUK,FEATURE_SMASH"
ALLUSERS=1 APPLICATIONFOLDER="%ProgramFiles%\SoftMaker Office Standard 2012"
```

## Tracing the installation

When you experience problems with the MSI installation, you should instruct it:

- to be verbose: In the command line, replace the `/qn` parameter with `/qb`
- to create a log file: Add the `/lv* Logfile.txt` parameter to the command line.

Example command line:

```
msiexec /i "SoftMaker Office 2012.msi" /qb TRANSFORMS=:lng_de.mst /lv* Logfile.txt
```

If you need to contact our support team because of installation problems, please *always* attach this log file to your e-mail.
